

LiveWire 23.1.1

WHAT'S NEW

What's New in LiveWire 23.1.1

- Added support for Dell R7525
- Removed Peer Map from LiveWire OmnipEEK
- Combined LiveNX and ThreatEye telemetry generation into a single process
- Increased the maximum packet capture file size to 64 GB
- Added a button in OmnipEEK to check for new adapters without having to restart the Capture Engine
